

Scituate FACTS is proud to partner with Scituate Public Schools to offer this award-winning Substance Use Prevention Workshop for Scituate parents and caregivers of children ages 9-15. Guiding Good Choices participants will get the latest data on local youth substance use, learn about the risk factors for addiction and, finally, acquire skills to build protection in their own families. Scituate families rave about this class! Parents and caregivers must attend all four classes the series. Please plan to bring your child or children ages 9-15 to Session Three (only) for refusal skills practice and pizza! Space is limited to small groups of 20. \$12.00 fee for the Family Guide may be paid at the first class (cash or check made payable to Town of Scituate). Scholarships available by simply emailing: scituateFACTS@gmail.com.

Please check the dates before registering at:
