

# Vaping Presentation

With 41% of SHS students reporting current use of vape products, the community is invited to learn more about concerning trends in nicotine use at a presentation by Caron Treatment Centers. The program will begin with all attendees in the Dining Commons. After an overview of data and expectations for the Junior Prom, students will attend age-appropriate workshops in the classrooms. Adults will remain for an in-depth look at e-cigarette devices, health impacts, and strategies for prevention and support. Free event is open to grades 5 and up.

\$10 off Prom Ticket for  
students in attendance  
+ free raffle

Separate  
workshops for  
students

Current info,  
strategies for  
parents & caregivers
